NVIDIA® Quadro® by PNY graphics solutions optimize CAD, DCC and Visualization performance at SIGGRAPH 2009

View the latest NVIDIA Quadro by PNY products; see how they integrate into key partners' industry-leading solutions

PARSIPPANY, NJ - (July 28th, 2009) – At SIGGRAPH 2009 (**Booth # 2017**) PNY and its key strategic partners will demonstrate industry-leading solutions for large-scale visualization, film and video, and digital content creation. Attendees will see how the [NVIDIA Quadro FX by PNY graphics boards](#) optimize professional 3D applications, streamlining 3D workflows and allowing users to give full rein to their creativity. [Quadro HD-SDI graphics boards](#) will demonstrate why they are chosen for the creation of high profile projects such as the latest feature films *X-Men Origins: Wolverine*, *Journey to the Center of the Earth 3D* and *My Bloody Valentine 3D*.

PNY will spotlight many new and exciting visualization products at its booth. Attendees will see impressive 4k images spanned across four displays in immersive stereoscopic 3D, using NVIDIA SLI® Mosiac Mode technology, the [Quadro Plex 2200 D2](#) and NVIDIA 3D Vision™ glasses. Also highlighted is the latest NVIDIA Quadro FX professional graphics solution for Mac Pro users, the new [NVIDIA Quadro FX 4800 for Mac®](#). Adobe® Creative Suite® 4 users are invited to witness how the new CUDA-based video processing plug-in, [Elemental Accelerator™](#), can dramatically accelerate decoding, processing and encoding.

“We’re excited to demonstrate with our key partners industry-proven visualization solutions that provide advancements for our 3D professional clients to free up their creative process, make their workflows more efficient and help them stay ahead of their competition,” said Jeff Medeiros, director of marketing, PNY Technologies.

“The NVIDIA Quadro FX 5800 SDI by PNY is our gold standard at this point for SCRATCH®. It provides the necessary graphics performance for real-time DI and the HD-SDI output that gives SCRATCH users unprecedented capabilities,” says Jeff Edson, CEO of ASSIMILATE.

Featured PNY Quadro Products:

- [NVIDIA Quadro FX 4800 for Mac](#) - specifically designed for Apple® Mac Pro users offering: 1.5 GB of memory, support for two 30" Apple Cinema displays, standard 3-pin stereo connector and support for Apple Boot camp.
- [NVIDIA Quadro FX 3800 by PNY](#) – with 1GB Memory, this high-end graphics board is ideal for demanding CAD/CAM, 3D design and DCC applications.
- [NVIDIA Quadro FX 5800 SDI by PNY](#) – this integrated graphics-to-video solution, designed for broadcast, film, and video professionals delivers high performance graphics to uncompressed 12-bit SDI in 2K, HD, or SD formats.
- [NVIDIA Quadro Plex 2200 D2](#) – a multi GPU system giving geophysicists, scientists, engineers, and other technical professionals visual supercomputing power at their desktops.

The following key partners will join PNY to demonstrate the power and performance of PNY's Visual Computing Solutions: [ASSIMILATE](#), [Autodesk](#), [BOXX Technologies](#), [Colfax International](#), [GlobalStor Data Corporation](#), and [Realtime Technology AG](#).
